## Product Description

### Kitchen Use One Button Start Food Waste Composter

#### Product Description

The Food Waste Disposer is a revolutionary appliance. It converts kitchen waste into fertilizer within 4 - 8 hours through one-button operation. Automatically calibrating work time by waste moisture, it simplifies kitchen tasks and shortens cleaning time, contributing to environmental protection.

The operation consists of three phases. Drying: high heat extracts waste moisture for decomposition. Grinding: rapid blade rotation pulverizes waste for fertilizer. Cooling: after grinding, the bucket cools for safe removal.
